

## Commitment Rules

As part of their engagement, the winners of the Energy Efficient Company are obliged to publish a short summary of their projects on their website as a news, blog post or static website, which should show the link [www.mi6.hu](http://www.mi6.hu) as the source. Appearance must be publicly available within 30 days of receipt of the award. The awardee company upon completion of the task shall notify MI6 Ltd. by email to the following account: [info@mi6.hu](mailto:info@mi6.hu).

In addition, we would like to ask all the awardees that the notification e-mail summarizes in two sentences the importance or the result of the VPPP.

Please display the awarded trademark and the VPPP logo on your website, preferably as:

- Gallery on the home page
- Web page header as a constant element
- In the sidebar or in the menu
- As a sublayer, sharing related content

Please publish the following information about the Energy Conscious Company award:

- Indicate the title type, year of the qualification and the accreditation period
- Date of acquisition of the title
- The commitments

After winning the prize and signing the trademark declaration, the summary and the logo placement can be checked by the MI6 during the qualified period. In case of incorrect placement, MI6 will send a formal proposal to the trademark user.
